

Technical Data Sheet

Product Name
TPE compounds

Product Type

Product Grade
10901CLA

Product Description

10901CLA is a non-PVC compound based on polyolefin raw materials. The product is designed for continuous compression molding and specially formulated for using as a gasket material in metal crowns for beverage applications.

Physical Properties

Properties	Test Method	Typical Value	Unit
Elongation at Break	JIS K6723	626	%
Tensile Strength	JIS K6723	137	kgf/cm ²
Hardness Shore A @15 sec	ASTM D 2240	94	

Note: • The given values are typical value measured on the product. Values herein are not to be constructed as a product specification.

Processing Guidelines

Product Technical Assistance

For technical assistance or further information on this product or any other SCG Chemicals' products, contact your SCG Chemicals technical services at the address as specified below.

Storage

- Store in original container in tidy according to the manual of Handling and Storage from Thai Polyethylene Co., Ltd.
- Product(s) should be stored in dry and dust free location at temperature below 50 °C and protected from direct sunlight and/or heat, well-ventilated area, away from incompatible materials and food and drink, as this may lead to quality deterioration, which results in odour generation and colour changes and can have negative effects on the physical properties of this product.
- Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.
- The storage area should be stable and not be slopped.

Safety

- The product is not classified as a hazardous material.
- Please see our Material Safety Data Sheet for details on various aspects of safety, recovery, and disposal of the products; for more information, contact your SCG Chemicals technical services.
